OBJECTIVE

Highly adaptable and tech-savvy Computer Technology student seeking a growth-oriented OJT position where I can apply strong analytical thinking, rapid learning, and a natural knack for troubleshooting to deliver immediate value to the team.

EDUCATION

Bulacan State University – College of Industrial Technology 2023 – 2027
Bachelor of Industrial Technology, major in Computer Technology · Expected graduation: 2027

St. Mary Academy of Hagonoy
Senior High School

SKILLS

- **Operating systems:** Windows and Linux installation, configuration, and troubleshooting; CPU scheduling concepts
- **Technical:** Computer hardware, technical troubleshooting, analytical thinking
- **Programming & web:** C++ (basic), HTML, CSS, JavaScript (basic)
- **Tools:** Git / GitHub, VS Code, GitHub Pages, Claude, ChatGPT

PROJECTS

CPU Scheduling Simulator HTML · CSS · JavaScript
Simulates FCFS, SJF, Priority, and Round Robin scheduling with a Gantt chart, waiting and turnaround times, and a side-by-side comparison of all algorithms.

Device Info Inspector HTML · CSS · JavaScript
Helpdesk tool that reads a device's OS, browser, display, CPU, memory, and network details and produces a copy-ready support report.

OJT AVAILABILITY

500 training hours · 2nd Semester, A.Y. 2026–2027 · Bulacan / Metro Manila
